RECENT WORK EXPERIENCE

Superior Physician Services – Jacksonville, IL

2013-Present

Family Nurse Practitioner

Consult with a wide array of patients to identify health problems and formulate care plans. Collaborate with physicians to determine treatment strategies and help achieve healthcare objectives. Order and interpret the results of diagnostic tests and screenings. Collect patient information (age, gender, health status, etc) and oversee different procedures based on the individual needs of clients and their conditions (I&D, splinting, skin biopsy, trigger point injection, cryotherapy, etc). Refer clients for specialty consultations as needed and educate patients and family members on possible treatments and various therapeutic options and resources. Currently participating in a pilot program with the goal of improving the care of diabetic patients system-wide.
